INFORMATION BROCHURE

With Immense pleasure we invite you to participate in the V-National conference on “EMERGING TRENDS IN CHEMICAL AND BIOLOGICAL SCIENCES (ETCBS – 2019)”

Host Institution

D.K.M. College for Women established in the year of 1972, stands as a living testimony of the generosity and vision of our founder Shri. N. Krishnaswamy Mudaliar. It enjoys the pride of offering 18 UG courses, 12 PG courses with Departments offering Research Guidance /Supervision for 10 M.Phil. and 12 Ph.D. programmes. The College which began 45 years ago with a student strength of 150 has grown today into a glorious support of learning with a strength of 3764 students. The college has been reaccredited by NAAC in 2016 (3rd cycle) and got autonomous status in 2006. The college has a team of experienced, efficient and dedicated faculty who have a passion for teaching and research. In an environment of erudition and innovation, the students are trained to acquire knowledge and skill to take the modern world head-on without compromising on core values.

About the Department

The Department of Chemistry of this institution was started in 1972 and upgraded to offer post graduate course in 2006. It has now grown as PG and Research department by offering M.Phil. and Ph.D. programmes. The department also aims to provide academic excellence and practical training to students to take up challenging assignments in the developments.

The Department is focusing mainly on educating and graduating rural women to compete with the modern world. The faculty members have received a financial support of around 60 lakhs from various funding agencies. The faculty and research scholars are constantly publishing their research findings in various peer reviewed national and international journals.

About the Conference

The V-National conference on “EMERGING TRENDS IN CHEMICAL AND BIOLOGICAL SCIENCES (ETCBS – 2019)” to be conducted on 4th January 2019, is to provide innovative ideas on current trends in research. The aim of the conference is to bring together the most distinguished scientists, industrialists, research scholars and academicians to share their findings. During the conference we expect collaborations at a national level, among experts in the various fields and we hope that the knowledge shared will be immensely useful to the budding scientists and research scholars.

Thrust areas:

- Polymer Chemistry
- Nanochemistry
- Environmental Chemistry
- Green Chemistry
- Organometallic Chemistry
- Analytical Chemistry
- Computational Chemistry
- Bioinorganic Chemistry
- Biological and Biomedical applications
