

D.K.M.COLLEGE FOR WOMEN VELLORE-1

DEPARTMENT OF BIOCHEMISTRY

SEMINAR/CONFERENCE/OTHER PROGRAMME DETAIL

PROGRAMME-I

WEBINAR

INVITATION

**DKM COLLEGE FOR WOMEN (AUTONOMOUS)
SAINATHAPURAM, VELLORE-01.**

DEPARTMENT OF BIOCHEMISTRY

**Organizes Webinar
On**

**“ROLE OF BIOCHEMIST IN HEALTHCARE
MANAGEMENT
DURING COVID PANDEMIC”**

Resource person
Dr.N.Kasthuri
Scientist
Department of Translational Research
SRM University of Science &
Technology
Kancheepuram.

Date :22.02.2021 Time : 2.30 pm

Venue
D-Block Conference Hall
(Google meet : <https://meet.google.com/keo-pois-sum>)

All are cordially invited
By
Staff, Students, Principal and
Management

D.K.M.COLLEGE FOR WOMEN (AUTONOMOUS)-VELLORE

DEPARTMENT OF BIOCHEMISTRY

WEBINAR ON

“Role of Biochemist in HealthCare Management During COVID Pandemic”

COVID-19, a viral infection has been spreading all over the world like a pandemic and India is not untouched by it. WHO has declared it a public health emergency of international concern on 20th January 2020. This outbreak has negatively impacted India's health, economy, development and sense of security. The outbreak seems to be unstoppable due to overcrowding, lack of awareness, weak health care system including molecular diagnostic services. Non-availability of laboratory services makes it extremely difficult to combat COVID-19 pandemic in India. India needs to better prepare to detect these cases through an efficient surveillance services including laboratory services, which are extremely critical in containing the initial phase of COVID-19 outbreak. Setting up of adequate equipped and dedicated health facility including diagnostic services is the need of the hour. Each tertiary care center/medical college should have at least such facility.

It is also desirable to bring all diagnostic expertise of tertiary health care and teaching hospital such as Biochemistry, Microbiology and Pathology department in one common platform for one common goal to contain COVID-19 pandemic. On based on the Present situation ,Department of Biochemistry organized webinar on

Topic : “Role of Biochemist in HealthCare Management During COVID

Pandemic”,

Resource person : Dr.N.Kasthuri ,

Scientist ,

Department of Translational Research ,

SRM University of Science & Technology ,

Kancheepuram.

Date : 22.2.2021

Google Meet : <https://meet.google.com/pgd-razf-fyk>

Registration Link : <https://forms.gle/gWC34QXM6kE5wbet7>

Feed back link : <https://forms.gle/ejULEHdg2zj1w8cR7>

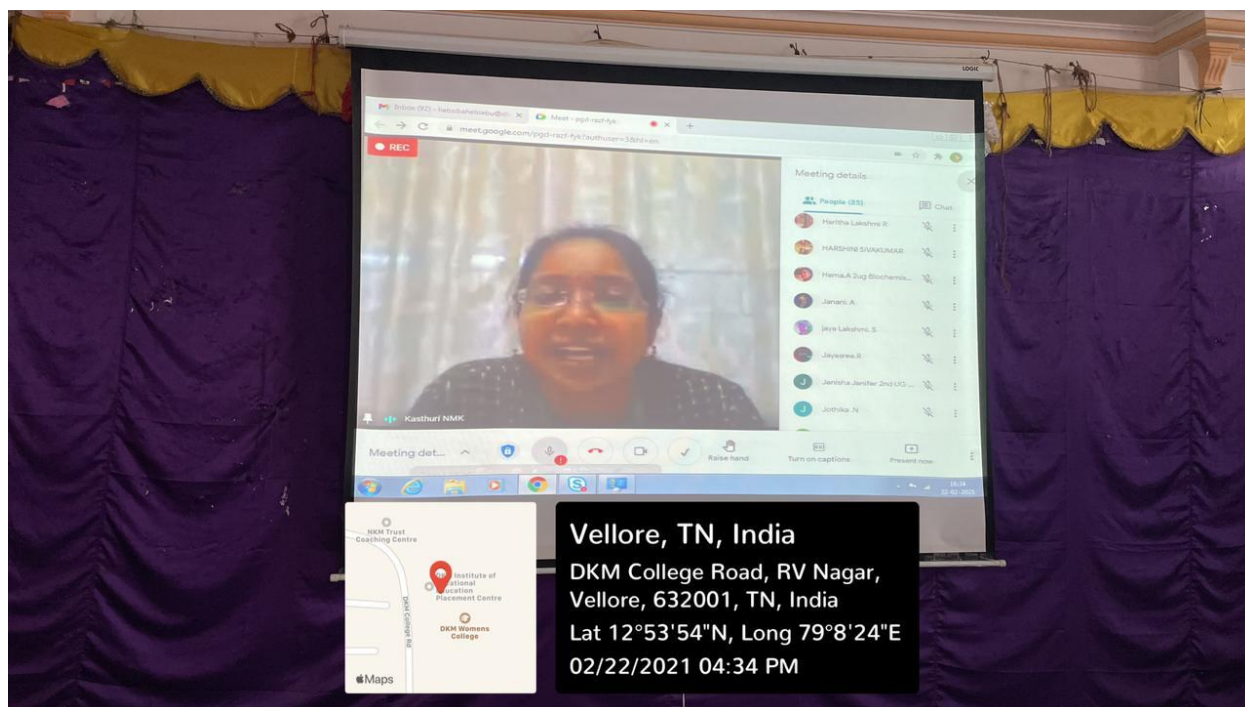

Time : 2.00pm

Venue : D-Block Conference Hall

More than 100 participants were participated and gained the knowledge about COVID-19 and its consequences and role of Biochemist in diagnosis of the diseases. The webinar mainly focused on Biochemistry specialist could be used for strategic acceleration of available diagnostic services. The biochemist has also been very well versed with molecular diagnostic techniques such as Real time RT-PCR and expertise. A person with MSc/MD/PhD in Biochemistry is having deep insight in molecular biology and its technique such as Real time RT PCR, not less than a microbiologist or pathologist. Hence biochemist's expertise could also be used for setting large number of molecular diagnostic lab across India to meet its current requirement.

Webinar was headed by Dr.V.Prabha, Head of the department, all the staff members actively participated in this webinar. Question answer session was there to clarify the quires of the students, welcome address was delivered by Dr.V.Prabha, and Head of the Department, and Introduction of the chief guest was done by Dr.B.Hebsibah Elsie. Vote of thanks was delivered by Dr.K.Shoba. The programme was ended by Grace of God with National Anthem.
