

#### **4. CERTIFICATE COURSE ON COSMETICS AND TOILETRIES**

The Department of Chemistry is happy in introducing a new certificate course on the topic “Cosmetics and Toiletries” for our students. This add on course was conducted in the month of February 2018 and in this course 51 students of II-B.Sc., chemistry were taught about the methods of preparation of various cosmetics products like eye liner, hair cream, anti ageing cream, foot cream, talcum powder, lipstick and toiletries like toilet cleaner, surface cleaner, marble and tiles cleaner, glass cleaner, soap, air refresher and ink in small scale. Students themselves have prepared and displayed the products. It was decided to improve the course in the future.
