

1. EXTENSION ACTIVITY

A science exhibition entitled “POLLUTION AND ITS PREVENTION METHODS” was conducted on 30-08-2017 by us. The function was organized at Government school, Edyansathu, Vellore and the programme was inaugurated by Mrs.S.Sathiyabhama B.Sc.,M.A.,M.Ed., A talk on the topic “Pollution and its Prevention methods” was given by Dr.N.Thenmozhi, head of the department,chemistry,D.K.M. College.

50 students of chemistry department exhibited there are Chart work, model and slogans work. The students and staff members of this school visited the exhibition between 9.00 AM to 2.30PM. The details of the programmes organized have been given below.

C.M.Sandhiya, Devitha, Aruna, and Mahalakshmi sang a song on pollution. K.Pavithra and J.Meena danced for a folk song. It was a movement which had aesthetic, symbolic value, acknowledged as a dance by performers and observes within a particular culture.

II year students played a historic skit on the topic pollution and I year students played a modern skit on the same topic.

S.Nandhini, M.Ilakiyalakshmi, P.Jothi, S.Nivetha, R.Pavithra, K.Susithra and M.Indumathi played with chemicals by presenting a fun.

I am sure the educational programme will provide the right platform for the innate creative fire burning in the young souls. 25 saplings were planted within the campus by the department and school staffs. It's the day of happiness, laughs and emotions filled with excitement, joy, music and enthusiasm.

It's really turned out to be a most memorable day in the life of all the students and staffs. Finally the programme ended with the National anthem.
