**“Personal Hygiene, Corona Virus, Merits and Demerits Of
Using Cell Phones”**

On

28/2/2020 - 10 am

***Venue:* Government High School, Edavansathu,
Vellore**

REPORT

Department of biochemistry has actively participated in the extension activities. Our UG and PG students participated in Awareness programme, on “CORONA VIRUS, PERSONAL HYGIENE, MERITS AND DEMERITS OF USING CELL PHONES, STEPS ON HAND WASHING AND GOOD TOUCH AND BAD TOUCH”. An information campaign was arranged and more than 300 students were benefited.

This programme was conducted at ‘GOVERNMENT HIGH SCHOOL ,EDAYANSATHU VILLAGE’ on 28-02-2020. School students were educated about the symptoms and causes for the corona virus and to maintain a proper hygiene. Preventive measurements and personal hygiene maintenance were neatly described through video lectures, demonstration by our department students and also through charts and models. On behalf of our department of Biochemistry we handed over 200 face masks to the principal Sathyabama mam.
