DKM College for Women (Autonomous), Vellore – 632 001

Date :

08.02.2019 FRIDAY

Venue : KAUVERI HALL, DKM College for Women, Vellore.

One day seminar on “Scope of Higher Education” was organized by Department of Physics, DKM College for Women (Autonomous), Vellore on 8th February 2019. The Department requested **Dr. R. Ravisankar**, Assistant Professor, Department of Physics, Government Arts College, Tiruvannamalai, and **P. Sundar Raj**, Project Coordinator Universal

Higher Education Trust (UHET), VIT Campus Vellore, to be the Resource Persons for the one day Seminar.

On day seminar (08/02/19), was inaugurated at 9.30 A.M in the Kaveri Hall with Prayer Song. **Miss. Vanie Sree Lalitha Magaeshwarie**, first year B.Sc., chemistry student, DKMC, delivered the welcome address to the gathering and the members on the dice.

After the inauguration, first lecture was started at 9.45 A.M by **P. Sundar Raj**, Project Coordinator Universal Higher Education Trust (UHET), VIT Campus Vellore, who had delivered the lecture on **“Face the Future”**. He gave the lecture in the following schedule:

1. Self Analysis (Duration: 20 to 30 minutes)
 - a) Know Yourself
 - b) Goal Setting
2. What Next to Under Graduation (Duration: 20 to 30 minutes)
 - a) Employment
 - b) Higher Education

c) Entrepreneur

3. Interview Skills (Duration: 20 to 30 minutes)

a) Internal Personal Skills (Body language, Dress code & General Etiquette)

b) Resume Writing

c) Group Discussion

At the end of the session, the participants actively took part in the discussion with the speaker and cleared their clarifications. The first session was followed by refreshment. The second session was started by 11.30 am.

In second session, the lecture was delivered by **Dr. R. Ravisankar**, Assistant Professor, Department of Physics, Government Arts College, Tiruvannamalai, entitled **“Radiations and its applications”**. He explained about what is radiation? And what are its types?. He elaborated his talk as radiation is part of our daily life. We benefit from it without noticing its presence. Common examples are electricity generation, medical and industrial applications. With proper use, radiation can be beneficial to the society.

He also explained that radiation is used to help remove toxic pollutants, such as exhaust gases from coal-fired power stations and industry. During question session, lots of questions were raised by faculty and participants and satisfactory explanations were given by **Dr. R. Ravisankar**.

Valedictory function was started at 1.00 P.M. Student were gave their feedback regarding both the sessions. The valedictory function came to an end with the vote of thanks given by **Miss. Hamsalakshmi**, first year B.Sc., chemistry student, DKMC, who thanked all the members actively involved for successful completion of the seminar.
