**TECHNIQUES IN IMMUNOLOGY AND GENETIC ENGINEERING**

**RESOURCE PERSON: MR.VINOD, M. TECH., PH. D.,**

**MEDOX INDIA PVT LTD., CHENNAI-63**

**DATE : 11.2.19 -12.2.19**

**VENUE : 'D' BLOCK CONFERENCE HALL**

**TIME : 2.00 – 4.00 PM**

On 11<sup>th</sup> and 12<sup>th</sup> February 2019, the Department of Biotechnology hosted two day work shop on the topic Techniques in Immunology and Genetic Engineering. The resource person was Dr. Vinodh, M. Tech., Ph. D., MEDOX INDAI PVT. LTD., Chennai-83. The students of II B.Sc., I M.Sc., and II M.Sc., Biotechnology participated in the workshop. The objectives of the workshop were to give hands on training to the students in techniques of Immunology and Genetic Engineering and make them skilled professionals in these areas.

On first day of workshop, students learnt the principles and uses of the experiments in immunology namely Western blotting and SDS PAGE and then they performed these experiments with the help of the instructor. The students actively participated in the workshop and clarified their doubts with the resource person. On next day, the students learnt the techniques in Genetic Engineering namely Transformation and PCR. The students enthusiastically involved in the workshop and benefitted a lot.
