REPORT VISITED PLACES

- Doddabetta peak
- Tea and chocolate factory
- Botanical garden
- Boating
- Pykara falls
- Shooting spot
- Pine tree forest
- Sims park

We visited Doddabetta on Monday (04.09.2023). We saw the telescopic view and binocular point of Ooty. It is the highest mountain in the south India around 2,637 metres. There is a reserved forest area around the Doddabetta peak. On the same day we visited tea factory and chocolate factory. The process of making tea powder was very amazing. Factory sprawls over an area of 1 acres in Ooty the midst of the many blue hills of the Nilgiris. As we entered the factory we could smell the intense aroma of tea. There was a vedio running, explaining each stage of tea production. They showed us from the beginning, exactly how the tea leaves are processed through different stages like withering, rolling, drying, and finally the shifting stages.

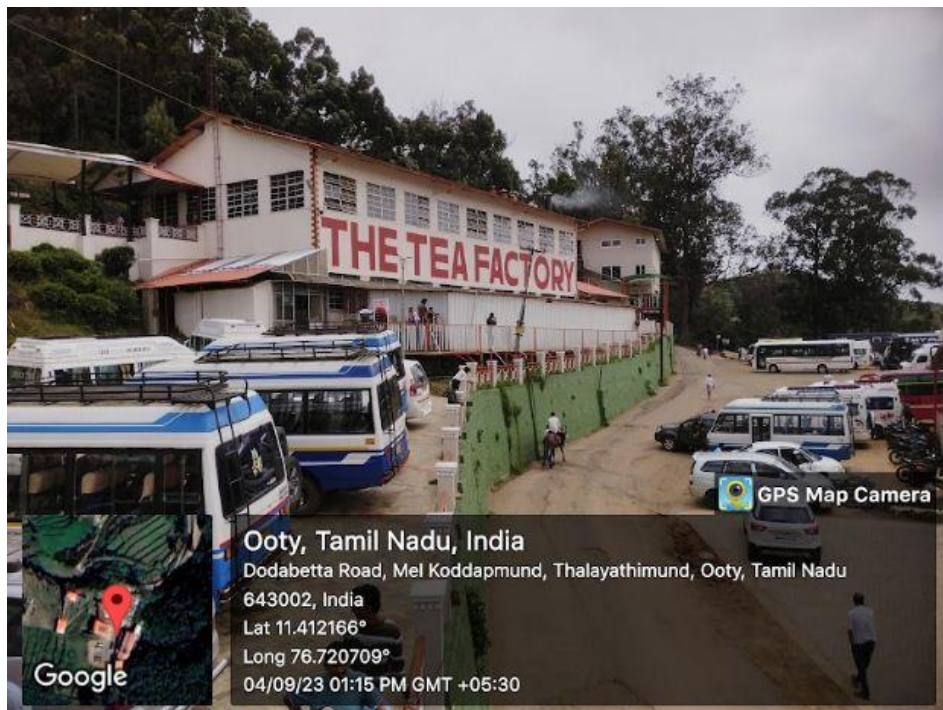

We could actually see the real production of tea in the factory. The process of drying the tea leaves inside a stainless steel sheet and then these dried tea leaves are passed through the crushers and finally, the tea is produced using the cut, curl and twist method.

Once we witness the tea production, we got to taste a cup of hot chocolate tea, which was very refreshing and good to taste. There is a proper tea store to purchase tea for the visitors. There were many options like masala tea, cardamom tea, ginger tea, green tea, masala green tea, and many more. Then we moved further to the Chocolate production section, we saw how they prepared chocolates from cocoa to powder and then prepare the chocolate paste and later mold it into different shapes. Just in front of the factory, there is an adventure club, we saw many people taking part in that. Then we visited to Botanical garden. On the last day, we visited Pykara falls, shooting spot and Sims park at Conoor. We returned to Vellore on early morning on 06.09.2023.
