SEED BANK PREPARATION

2023-2024

REPORT

Seed bank preparation programme was conducted on 10.10.2023 at Botany Department. Dr. L.Umamaheswari, Associate Professor and Head, Department of Botany addressed the students. She spoke that Seed bank is a reservoir of viable seeds or vegetative propagules. She also explained the student seeds are so important because seeds are the foundation of human and animal life.

She also added the food we eat and the products we use in our daily life are produced from cotton, corn, flowers etc. Finally she gave practice to the students how to store locally available plant seed. Students also bring seeds from their home and gave the seeds to other students who really want to grow it. Students were encouraged to grow plants even in the pots also.

About 15 students were participated in this programme and benefitted.
